

Offsite Backup Services

Technology Associates offers Offsite Backup Services specifically designed to meet the needs of small and midsize businesses, providing enterprise-class online data protection with exceptional performance. This service is particularly well-suited for Law Firms, Accounting Firms, and companies with compliance requirements that mandate data to stay within Canada.

With our Offsite Backup Services, you can trust in our robust backup infrastructure, which is 100% owned and managed by Technology Associates, a Canadian federally incorporated company headquartered in Brampton. This ensures that your data remains securely within Canadian borders, meeting regulatory compliance standards. Our reliable and efficient backup solutions provide peace of mind, knowing that your critical business data is protected and readily accessible when you need it.

Pricing Model

Monthly with no Fixed-term contract

Local

Technology Associates' Hybrid Backup solution offers the perfect complement to your local backup strategy. It effectively addresses the common issue of slow restores by combining the benefits of online backup and local backup.

With our Hybrid solution, online backup provides secure and accessible data storage that enables your business to recover from disasters effectively. Meanwhile, your local backup ensures swift restoration of all your lost files. This combination ensures both convenience and speed in data recovery.

One of the advantages of our Hybrid Backup is unlimited data transfer. You can send as much data as you need without incurring additional charges, allowing for seamless backup and recovery operations.

Rest assured, the safety and security of your data are our top priorities. Our facilities, located in the Greater Toronto Area, house your data within our two Cloud Backup locations. This ensures that your data remains safe, secure, and geographically located in Canada, providing peace of mind regarding data sovereignty and compliance with Canadian regulations.

Monitoring and Management

Your backups are monitored 24/7/365 so in the event of a failed backup you are notified. Need more reliability add Technology Associates IT Support services and have your backups tested and verified.
